The TBI Council of Washington & the Center on Brain Injury Research and Training

Childhood Brain Injury:

Best Practices in Return to School

Free Virtual Conference via Zoom
Friday, May 21, 2021
8:30am-4:15pm
Pacific Standard Time

Friday, May 21, 2021

8:30am Conference Opens

9-9:30am Creating a Successful Support Network at School for Students with Brain Injury

Melissa McCart, EdD, CBIRT

Linda Brown, DEd, David Minor, MIPM, Will Hitchcock, PhD, Lee Collyer, MSW

9:30-10:00am CDC Perspective: Gaps in School Services and Strategies for Improvement

Julie Haarbauer-Krupa, PhD

10:00-10:45am Teacher Panel: Perspectives from the Front Line, Douglas Gomez, PhD, facilitator

Sarah Becker, MEd Kathy Olmsted, MEd Ricky Rodriquez

10:45–11:30am Longitudinal Qualitative Study on Return to School: Implications for School Services

Melissa McCart, EdD Douglas Gomez, PhD

11:30-12:00pm *Lunch Break*

12:00-12:30pm Best Practices in Return to School

Melissa McCart, EdD Susan Davies, EdD

12:30–1:30pm Return to School Models that Show Promise

Karen McAvoy, PsyD Sara Timms, EdS

Cindy Brunken, Med, MS, CCC-SLP

1:30-1:45pm *Break*

1:45–2:45pm Return to School Models that Show Promise (continued)

Debbie South, MEd, Ryan Hanna, MEd

Traci Barney

Monica Valivala. MD

2:45–3:15pm Panel Discussion: Return to School Models

3:15–3:45pm Evaluation of RTS models: Brain STEPS and Central Oregon TBI models

Brain STEPS - Angela Ciccia, PhD and team

COR-TBI - Deanne Unruh, PhD

3:45–4:15pm Break Out Room Discussions

Learning Objectives

As a result of this activity, the participant will be able to...

- 1. Describe how the school environment presents struggles for students with brain injury by listing at least 3 potential barriers.
- 2. Apply evidence-based strategies when supporting students with brain injury and be able to summarize how these strategies will be used in future work with students with brain injury.
- 3. Associate evidence-based approaches for managing concussion in various situations and settings with improved student outcomes.
- 4. Describe at least 5 key points from current literature about successful return to school programs.

Conference Sponsorship

This conference is sponsored and financially supported by the TBI Council of Washington, Aging and Long-Term Support Administration (ALTSA), and Washington State Department of Social and Health Services.

Speaker Biographies and Disclosures

Traci Barney

- Biography: I am the Primary Prevention Program Coordinator for the Violence and Injury Prevention Program at the Utah Department of Health. I am the subject matter specialist for TBI and SCI. I graduated from Weber State University with a Bachelors in Health Administration and a Bachelors in Health Promotion. I am currently attending the University of Denver Masters in Social Work program. I have worked in the field of brain injury for 20 years. I have worked in many capacities with people from mild to severe brain injuries. Most of my career has been in brain injury community rehabilitation. I now oversee our two TBI Funds, the ACL Partnership Grant and the TBI portion of our Core CDC grant on prevention. I have four adult children and two grandchildren. I love the outdoors and spending time with my family.

Angela Ciccia, PhD, CCC-SLP

- Biography: Angela H. Ciccia, is an Associate Professor in the Department of Psychological Sciences, Communication Sciences
 Program at Case Western Reserve University. Her research focuses on exploring the barriers to pediatric rehabilitation for children
 especially for high-risk, low-income groups, with a special focus on pediatric TBI. She has federal and state funding to examine
 educational, social, and health effects of pediatric TBI with a special focus on the return-to-school and long-term management
 periods. Dr. Ciccia is a frequent speaker for local and national conferences on the translational aspects of rehabilitation science for
 children with brain injury.

Lee Collyer, MSW

- Biography: Lee Collyer, MSW serves as Program Supervisor-Special Education Outcomes/Restraint and Isolation at the Office of Superintendent of Public Instruction (OSPI) in Olympia. Lee has 15-plus years' experience leading and designing programs for students and families in various educational and residential environments. He has presented and trained professionals nationally on topics such as positive behavior support, youth readiness, special education, poverty, classroom management, crisis management, seclusion and restraint elimination/reduction, and MTSS.
 - At my core, I work from the firm belief that all students, means **all** students. Raised by a public school teacher in rural New England, with a 10-year pit stop in Oakland, CA, my entire career has been spent partnering with and advocating for historically marginalized students and families in public, private and institutional settings I have extensive experience helping non-profit, district and building teams develop and sustain systems and strategies to effectively support all students across all three tiers of intervention.

Ann Glang, Ph.D.

- Biography: Ann Glang, PhD, is a Research Professor and Director of CBIRT. Since 1987, she has secured and directed or co-directed over 30 federally funded research projects focused on individuals with TBI, including both descriptive and intervention research projects. Her research interests include strategies and supports in the school setting for children and adolescents with brain injuries, teacher training and childhood brain injury prevention. She has published numerous articles in refereed journals, edited two books on her work with children with TBI, and co-authored five manuals for educators serving children with TBI. Dr. Glang was awarded the 2011 Researcher of the Year award by the North American Brain Injury Society. Dr. Glang has also led the development of a range of SBIR-funded health education programs, including Brain 101, a concussion education and management program for high schools.
- Financial Disclosures: Yes
 - o Paid Employment (full or part-time employees): Part of my salary is paid by Cooperative Agreement # 1U001CE003163-01-00. Evaluation of Return to School Programs for Traumatic Brain Injury. Centers for Disease Control and Prevention
 - Grand Funds: (see above)

Juliet Haarbauer-Krupa, PhD

- Biography: Juliet Haarbauer-Krupa, PhD, is a senior health scientist on the Traumatic Brain Injury (TBI) Team, in the Division of Injury Prevention (DIP), at the Injury Center. As a health scientist, her role on the TBI team is to devise research projects and products to better understand trends in TBI in the U.S. and to improve health outcomes for individuals living with a TBI. She is project lead on the Report to Congress on the Management of Traumatic Brain Injury in Children, ports project, and return to school projects in the division. Dr. Haarbauer-Krupa's publication topics include
 - o Fall-related TBI in young children
 - o Emergency department visits for sports related concussion
 - o Prevalence of parent reported TBI in the US and associated health conditions
 - Mechanism of injury across the pediatric lifespan
 - o Report on life expectancy and unemployment outcomes for moderate to severe TBI
 - Post-traumatic stress disorder (PTSD) in mild TBI
 - Point of healthcare entry for children with concussions
 - o Talking to young children about concussions
 - Service delivery systems for children with TBI

Dr. Haarbauer-Krupa has over 30 years of experience and has authored over 100 publications and presentations in the area of TBI, with specialties in rehabilitation and pediatric populations. She currently holds an adjunct position in the Department of Pediatrics at Emory University's School of Medicine.

ASHA CEUs:

This conference has been approved by the Continuing Education Board of the American Speech-Language-Hearing Association (ASHA) for ASHA CEUs for speech-language pathologists and audiologists. ASHA CEUs will be awarded for the live event only; no credit will be awarded for recordings of this conference. The full conference is available for 0.65 ASHA CEUs.

Awarding ASHA CEUs: The Oregon Speech-Language & Hearing Association (OSHA) is an approved ASHA CEU provider, and will report your CEUs to ASHA if you elect to for ASHA CEUs. You must indicate this on your conference registration, and include your ASHA number when you register. Deadline for requests for ASHA CEU submission is May 31, 2021; ASHA CEU requests cannot be accepted after that. *Please contact Amanda Perez at aperez2@uoregon.edu* with any questions.

ASHA CE Registry Info: An annual ASHA CE Registry fee is required to earn ASHA CEUs. The participant pays ASHA CE Registry fees directly to the ASHA National Office. The annual ASHA CE Registry fee allows registration of an unlimited number of ASHA CEUs for the calendar year. Contact the ASHA CE staff at 800-498-2071 for CE Registry fee subscription and CE Registry eligibility information.

State Licensure Hours: A Certificate of Attendance will be provided at the conclusion of the conference. Maintain this form in your personal files. You will need this when renewing your license.

Program Completion Requirements: Participants are expected to be present for the entire program. Individuals who are not present for the full program will not be recommended for ASHA CEUs. No partial credit will be provided.

This course is offered for 0.65 ASHA CEUs (Intermediate Level).

Oregon Speech-Language & Hearing Association

Intermediate Level 0.65 ASHA CEUs

Additional Policies

<u>Complaints:</u> For questions, comments, or complaints please email Amanda Perez at <u>aperez2@uoregon.edu</u>

<u>Accommodations:</u> Any learner needing accommodations to access this course material should please contact Amanda Perez at aperez2@uoregon.edu
